ACUSHNET FREE PUBLIC LIBRARY. SECRETARY'S REPORT.

There are but few changes to report in our library the past year. One only was important, the resignation of our valuable librarian, who served so faithfully for many years. We recognized the value of her work, but as she wished to resign, we were fortunate in securing the services of Miss Emma White of Acushnet, who proves efficient, and is pleasing to her patrons. The larger number of French people, now in our town, are well provided with interesting books in their own language.

Our library is now getting too small for the many applicants, especially among the young men and women, and young children in the schools. It is possible that sometime in the future we may have a larger library, for which we may thank one of our townsmen, who remembered this "need" in his will.

The library at Long Plain has a woman interested in her pleasant duties, also prompt and helpful as a librarian. On account of her larger number of patrons the past year, she has asked for and received an advance in her salary.

Respectfully submitted,

MISS E. A. BROWNELL,

Trustee and Secretary.

Report of Librarian for Year, 1921.

Jan. 1 to June 30, 1921:

Total receipts, \$16.32

Total expense, 12.70

Cash received by E. White,	\$3.62

For fines and lost cards,	\$21.04
For 1 lost book,	1.00
Expense :	
Paid to assistants,	\$18.25
Paid for postage and supplies,	2.75
Cash on hand Dec. 31, 1921,	4.66
	<hr/>
	\$25.66 \$25.66
Books taken out, Jan. 1 to Dec. 31, 1921,	11,830
Average per day,	78
Largest number given out,	189
Number of card holders, Dec. 31,	260
Books added in 1921,	98

Three books have been received as gifts from different departments of the State of Massachusetts.

A new registration of card holders was begun in August, thus eliminating the names no longer using books from the lists.

Miss Gertrude Pettey, Mrs. Ruth Nering and Miss Gladys Ellis have assisted the Librarian.

While it is the wish of the Librarian that the library be of as much service as possible to the public, it would be greatly appreciated if the parents would co-operate by helping the children to return books promptly and keep them from becoming torn, cut or soiled.

Respectfully submitted,

EMMA L. WHITE,

Librarian.

 Moth Superintendent.

REPORT OF INSPECTOR OF ANIMALS

From Jan. 1, 1921, to Jan. 1, 1922, I have inspected 151 barns, 879 cattle, 97 swine and 1 pair of oxen.

Have quarantined and killed 11 cows afflicted with tuberculosis, more than in any one year since there was an inspector of animals.

Have quarantined twenty-two swine with cholera and have sent heads of four dogs to Department of Animal Industry to be examined, three positively having rabies.

It is necessary that we restrain all dogs and watch them closely so that this disease may be stamped out, the last case was reported in the latter part of January, 1922, and case previous was in June, 1921, showing that this disease is still developing in the town.

F. O. TRIPP,
 Inspector of Animals.

REPORT OF BOARD OF HEALTH FOR 1921.

Immediately following the annual election the Board organized as follows:

Joel P. Bradford, M. D., Chairman, term expires 1924;
 Fred E. Wellington, Secretary and Agent, term expires 1922;
 H. D. Pierce, term expires 1923.

Albert S. Jenny was nominated Inspector of Slaughtering for the year 1921, approved by the State, and duly

sworn into office. His work has been done in the usual satisfactory way, and his report is as follows:

Swine, 503; condemned, 1.

Veal, 314.

Beef, 45; condemned, 8.

Sheep, 1.

ALBERT S. JENNY,

Inspector.

The increase in tubercular cases, with the state requirement that such cases be hospitalized has greatly increased the expense of this department. This fact must not only be anticipated but added legislation increasing the requirements of this department must be expected each year, and with these larger demands are made upon the finances.

The overdraft this year is not entirely due to this year's increased expense, but to the fact that some bills of the previous years were not received by the department until too late for 1920 audit.

Of our contagious diseases diphtheria has been the most persistent, and the Board hopes to be able the coming year to give the school children at least the benefit of the Schick treatment for the prevention of this disease.

There have been 39 cases of contagious diseases reported to the Board as follows:

Diphtheria,	19
Scarlet fever,	2
Chicken pox,	5
Whooping cough,	4
Mumps,	5
Measles,	4

There have been 70 deaths in the town.

The following financial statement will speak for itself as to the necessity for increased appropriation the coming year:

Most respectfully submitted,

NORMAN L. SIVIGNY,

ROLAND S. BUMPUS,

EDMUND A. LAMBERT,

Board of Selectmen.

REPORT OF HIGHWAY DEPARTMENT

At the first meeting of the Selectmen, Norman L. Sivigny was reappointed Superintendent of Streets, and he personally took charge, directing and supervising all work connected with the department during the year.

The main work done in the past year was on Middle, Slocum and Perry streets. A new piece of macadam was constructed on Slocum street, and gutters laid, for a distance of 300 feet. There now remains about 1,000 feet to be finished, and we recommend that provision be made for the completion of this street during the year.

The largest expenditure was made on Middle street, where the road machinery was installed and operated. (See financial statement in other part of report.) Of the 827 tons of stone crushed by the town most of it was used on this street.

All of Perry Hill was macadamized, gutters graded and relaid, surface tar bound and coated with pea gravel.

This street is in good condition considering the amount spent for repairs.

Peckham road, Keene road, Lake street and part of Middle street were properly graveled and put in good condition.

The repairs on Quaker Lane were only partially done owing to the scarcity of gravel in that part of the town.

Cutting and clearing brush along the highways was a large part of my program during the year, and it was properly attended to.

The laying of South Main street drain was included in the highway department. A twelve inch drain was laid on the east side of said street, starting from the center of Grant street, and extending south for a distance of two hundred sixty (260) feet, to a point opposite the center of Alfred Guilbeault's store. Owing to the length of ledge uncovered, the cost of completing the drain as contemplated was estimated to be considerably in excess of the appropriation, and the work was discontinued.

The conditions on Main street are such as to require no detailed statement from me here. A great quantity of cinders were spread on this street, in the immediate vicinity of Sullivan's gravel pit, and made a fairly good rolling surface for part of the year. However, such repairs will not stand up under the heavy and constant traffic. The road is in very bad condition at the present time. We recommend that a liberal appropriation be made for the construction of new macadam, from Taber Hill extending north, covering the worst part of the road.

Hoping that the inhabitants will zealously co-operate with the highway surveyor, whoever he may be, in the improvement and betterment of our highways.

All of which is most respectfully submitted.

NORMAN L. SIVIGNY,

Superintendent of Streets.

WARRANT
For Annual Town Meeting
MONDAY, MARCH 6, 1922

Commonwealth of Massachusetts.

Bristol, ss.

To either of the Constables of the Town of Acushnet,
in said County,

GREETINGS:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of the Town of Acushnet qualified to vote in town affairs to meet at the Town Hall, in said town on Monday the sixth day of March next, at six o'clock in the forenoon (the polls may close at 2 o'clock p. m.), to act upon the following articles, viz.:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To choose all necessary town officers for the ensuing year, viz.:

Town Clerk, Treasurer and Collector of Taxes for one year.

Three Selectmen and Overseers of the Poor, one year.

One Assessor for three years.

One member School Committee for three years.

One member Board of Health for three years.

One Trustee for Free Public Library for three years.

One Water Commissioner for three years.

One member of Cemetery Board for three years.

One Auditor for one year.

One or more Constables for one year.

Surveyors of Lumber, Pound Keeper, Field Drivers, Fence Viewers and Tree Warden, for one year.

Article 3. To see what compensation the Town will pay its officers, and make an appropriation therefor.

Article 4. To raise and appropriate such sums of money as may be necessary to defray charges and expenses of the town for the ensuing year, namely:

For the support of Schools, payment of the Superintendent, School Books and Supplies, Medical Inspection of Schools, School Teachers' Retirement Fund, Transportation.

For Support of the Poor.

For Highways and Bridges.

For Road Incidentals.

For Street Lighting.

For Incidental Expenses.

For Public Library.

For Board of Health.

For Officers' telephones.

For Forest Warden.

For Hydrant Service.

For the Suppression of Moths.

For Notes and Interest.

For Vocational School.
For Soldiers' Relief.

Article 5. To see if the Town will authorize the Treasurer, under the direction of the Selectmen, to hire money from time to time in anticipation of revenue of the current year.

Article 6. To see if the Town will authorize the Selectmen to procure the Treasurer and Collector's bonds.

Article 7. To see if the Town will vote to accept Sections 73 to 81, Chapter 41, of the General Laws, and create a Board of Survey in the town.

Article 8. To see if the Town will vote to accept Section 105, Chapter 41, of the General Laws, providing for the appointment of a Board of Trustees of Soldiers' Memorials.

Article 9. To see if the Town will vote to accept Section 45 of Chapter 41, of the General Laws, and create a Board of Commissioners of Trust Funds.

Article 10. To see if the Town will vote to authorize the Selectment to petition the Commonwealth, through its Director of Accounts, to install a State System of Accounting in the town, and make an appropriation therefor.

Article 11. To see if the Town will vote to appropriate the sum of twelve hundred nine 43-100 (\$1,209.43) dollars, the town's proportional part, for the care, maintenance and repair of the Bristol County Tuberculosis Hospital, from January 1st, 1921, to December 31, 1921, under Section 85, Chapter 111 of the General Laws, to be paid on or before the first day of April, 1922.

Article 12. To see if the Town will vote to appropriate the sum of five thousand dollars, for the construction, and extension of new macadam on Main Street, contingent

upon the Commonwealth, through its Commissioners of Public Works, and the County, each allotting an equal amount.

Article 13. To see if the Town will vote to direct the Selectmen to petition the Legislature to permit the town to borrow \$25,000, the same to be raised by issuing notes or bonds beyond the debt limit to enable it to erect an addition of four rooms to the Parting Ways School for the purpose of establishing a Junior High School and to authorize the Selectmen and School Committee to represent the town at any hearing which may be held on said bill. (By petition.)

Article 14. To see if the Town will raise and appropriate the sum of five hundred dollars annually for the purpose of platting the town, or take any other action thereon.

Article 15. To see if the Town will vote to authorize the Selectmen to negotiate for the purchase of a suitable motor truck for the use of the Forest Warden and fire department, conditional upon the terms of three annual payments.

Article 16. To see if the Town will appropriate a sum of money to purchase 1,000 feet of double jacketed canvas and rubber lined fire hose, for the Acushnet fire department.

Article 17. To see if the Town will vote to install six lights on South Main Street, between Hope Street and the Blue Stone Quarry.

Article 18. To see if the Town will vote to authorize its Treasurer with the approval of the Selectmen, to issue two notes of \$10,000 each, to replace notes No. 73 and No. 74, as provided by Chapter 44, Section 17, of the General Laws, or act anything thereon.

Article 19. To see if the Town will vote to build a partition in the Selectmen's office, for the convenience of the Treasurer and Collector, or act anything thereon.

Article 20. To see if the Town will vote to pay the Treasurer and Collector a salary, or act anything thereon.

Article 21. To see if the Town will vote to exempt from taxation for a period of five years, any new manufacturing concern wishing to locate in the town of Acushnet, or act anything thereon.

Article 22. To see if the Town will vote to instruct its Assessors in 1922, to limit the amount of taxable property known as manufacturing plants now located in the town of Acushnet, to 75% of their book value.

Article 23. To see if the Town will vote to accept House Bill No. 1,235, which is for the creation of a Fire and Water District, now pending before the Legislature. (By petition.)

Article 24. To see if the Town will appropriate three hundred dollars for repairs on Jean Street. (By petition.)

Article 25. To see if the Town will vote to install one street light at the corner of Conduit and Wilbur Avenues. (By petition.)

Article 26. To see if the Town will vote to install three street lights on Garfield Street. (By petition.)

Article 27. To see if the Town will appropriate a sum of money for repairs on Wing Road, and install street lights at suitable distances. (By petition.)

Article 28. To see if the Town will appropriate a sum of money to grade and fill on Roosevelt Street. (By petition.)

Article 29. To see if the Town will vote to raise and appropriate a sum of money, for the construction of a drain, from J. R. Oliver's Hardware Store, 82 South Main Street, to Garfield Street. (By petition.)

Article 30. To see if the Town will vote to authorize the Selectmen to appoint a keeper for the town lockup.

Article 31. To see if the Town will authorize the Town Treasurer or such other parties as the Town may designate, to receive any and all money, funds, or property, that is due or may become due to the town, under or by virtue of the will of the late George T. Russell, Jr., and sign releases and receipts therefor.

Article 32. To act on any other business that may legally come before the meeting.

And you are hereby directed to serve this warrant, by posting up an attested copy thereof on or near the front or main entrance of the Town Hall, at the Acushnet Post Office, at H. B. Parker's Store, at E. L. Macomber's Blacksmith Shop, at C. B. Ellis's Store, seven days at least, Sunday included, prior to the date of the meeting.

HEREOF FAIL NOT, and make due return of this warrant with your doing thereon, to the Town Clerk at the time and place aforesaid.

Given under our hands this twenty-fifth day of February, in the year one thousand, nine hundred and twenty-two. (1922.)

NORMAN L. SIVIGNY,
EDMUND A. LAMBERT,
ROLAND S. BUMPUS,
Selectmen of Acushnet.

A true copy, attest:

HENRY L. LEBOEUF,
Constable.

SCHOOL REPORT

1921

School Committee.

JOSHUA ADDY	Term expires 1924
HENRY A. JACKSON	Term expires 1923
WALTER E. TRIPP	Term expires 1922

HENRY A. JACKSON, Chairman.

CHARLES F. PRIOR, Superintendent.

Telephone at home in Fairhaven 3499-W.

Telephone at office in Fairhaven Town Hall, 3891.

Voted in Committee on February 3, 1922 to accept the Report of the Superintendent and approve it as the Report of the School Committee.

REPORT OF SCHOOL COMMITTEE.

To the Citizens of the Town of Acushnet:

Following is the report of your school committee for the year 1921:

At a meeting of the committee held Feb. 3, 1922, it was voted to accept the report of the Superintendent of Schools and approve the same as the report of the School Committee.

In addition to the above it was also voted to thank the citizens of the Town for their generous support of the schools during the past year as it has enabled your committee to place the Parting Ways and Long Plain schools in a better physical condition than before and at the present time they do not suffer in comparison with school buildings of the same class.

Your generosity has also enabled your committee to abolish half-time schooling, one of the most difficult problems in our educational system, which can only be solved by loyal support on the part of taxpayers. Fully aware of the criticism aimed at our schools in regard to this question, your committee from the very first of the school year endeavored to give each and every child a full day's schooling for the whole school year, as we considered this the most important duty of school committeemen. It is the aim of your committee to continue this policy and the appropriations asked for at the coming Town Meeting are based on these grounds.

One very serious problem has presented itself during the past year and that is the High School question. Your committee has considered the question in all its phases and unanimously recommend the addition of four rooms to the Parting Ways school for the establishment of a Junior High School. It is proposed by your committee that the

Town direct the proper officials to appear before the State Legislature and ask exemption from the debt limit to the amount of \$25,000 for the above purpose. This appears to your committee the most economical plan, the debt will be spread over a series of years, and instead of paying tuition and transportation charges for the large number of pupils who now enter the first year of High School a good portion of the money can be saved and be used to help defray the cost of the addition to the Parting Ways school.

Your committee also wish to call to your attention the fact that the Parting Ways school has been equipped with electric lights out of our regular appropriation. This was one thing the school sorely needed and your committee is greatly indebted to Superintendent Prior for its achievement, as your committee aided by the superintendent, have kept that project in view all the year, and by careful scrutiny of all expenditures we have been able to accomplish this much desired improvement. This will enable the Town to use its most central school building for evening classes when it is deemed necessary.

At a time when your committee was confronted by a very serious problem in regard to obtaining water at the Mason W. Burt school, they take great pleasure in expressing their gratification at the loyalty displayed by an old Acushnet boy, Chester E. Gardner of New Bedford, who generously stood willing to come to the aid of your committee by allowing the use of water from an old spring located a short distance from the school house. By a fortunate experiment it was not necessary to resort to this method of securing water. The fact still remains that before any enlargement of the above school is contemplated Town water should be insisted upon.

respectfully submitted,

HENRY A. JACKSON, Chairman.

WALTER E. TRIPP,

JOSHUA ADDY.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Acushnet:

The ninth annual report of the present superintendent of schools is herewith submitted. The financial summary follows:

RECEIPTS

Balance from 1921,	\$39.84
Appropriation,	35,800.00
State General School Fund,	4,300.00
State on account of Superintendent,	257.42
Incidentals,	109.98
	<hr/>
	\$40,507.24

EXPENDITURES.

General Control:

Superintendent's salary,	\$571.44	
Office clerk,	108.00	
Attendance officer,	80.00	
Other office expenses,	38.26	
	<hr/>	\$797.70

Instruction:

	\$19,892.01	
Text books,	992.05	
Supplies,	1,174.25	
	<hr/>	\$22,058.31

Operation and Maintenance:

Janitors' salaries,	\$2,620.00	
Fuel,	2,785.39	
Building supplies,	714.84	
Repairs,	752.97	
New Equipment,	1,042.80	
	<hr/>	\$7,916.00

Other Agencies:

Transportation,	\$4,599.24	
Health,	233.33	
	<hr/>	\$4,832.57

Miscellaneous :

Tuition,	\$3,355.00
New Grounds,	111.75
Sundries,	394.81
	<hr/> \$3,861.56

Total expenditures,	\$39,466.14
Balance on hand,	1,041.10

Two special appropriations were made, one for installation of toilets at Parting Ways and Long Plain, the other for finishing two rooms at the Mason W. Burt School. These stand as follows :

Parting Ways and Long Plain Toilets.

Appropriation,	\$6,725.00
Expenditures,	6,775.03

Overdrawn,	\$50.03
------------	---------

Completion of Mason W. Burt School.

Appropriation,	\$8,000.00
Expenditures,	7,618.36

Balance on hand,	\$381.64
------------------	----------

Including the two special appropriations, Acushnet has raised by taxation and expended for schools over \$50,000 during the fiscal year just closed. Eight thousand dollars was spent for new school rooms. Under ordinary circumstances this would have been raised by issuing bonds. When the voters found this was legally impossible and decided to place the amount in the current tax levy they furnished conclusive evidence of devotion to the interests of children. The appropriation of \$6,725 for toilets at Long Plain and Parting Ways met a need of long standing. It is entirely natural that some citizens should complain of

the increase these appropriations made in their taxes. It remains true, however, that the money has been well spent. Without the two rooms at the Burt School, one hundred children would have been on half time this year. Even admitting that it might have been possible to have postponed the toilet appropriation, it is a fact that the toilet accommodations at Parting Ways for four hundred children were outrageously unhygienic and inadequate, if not indecent. The condition at Long Plain was no better except that there were fewer pupils. The children of both buildings are safer from epidemic than they would otherwise have been. The investment made will be of permanent value to them. The willingness of the voters to make it when the financial resources of the town were so low reflects very great credit on them.

ATTENDANCE.

The total enrollment for the year ending in June 1921 was 685, the average membership 655, the average attendance 610 and the percentage of attendance 93. The present actual enrollment is 723 an increase of 63 over the number at this time last year.

The following table enables comparison of attendance statistics for the last five years.

	1916-17	1917-18	1918-19	1919-1920	1920-21
Total Enrollment	436	533	630	722	685
Average Membership	374	438.5	582.1	608	655
Average Attendance	349	405.6	440	567	610
Percent of Attendance	93	92.8	91	93.2	93

The number of children now in actual attendance, 723, is greater than at any previous time in the town's history.

MASON W. BURT SCHOOL.

The contract for finishing two additional rooms at the Mason W. Burt School was awarded on July twelfth. The building was occupied by the children on October third. The Committee deserves congratulations on the speed with which the work was accomplished. There were many

things to be done besides the new work. The water supply required much attention. This seems now to be satisfactory. There were various minor defects in construction most of which have been rectified by the contractors. The building is satisfactory for school purposes. It will have a much better appearance when four rooms have been added, thus completing the design of the architect. The contract was let when prices were at the peak so that the building cost relatively more than the Marie S. Howard School. There are at present 146 pupils attending school here.

BUILDING NEEDS.

There are now 723 pupils in 18 school rooms, an average of 40 per room. The situation in respect to housing is the best in ten years. For the first time since 1915 no children are attending on half time. This does not mean, however, that there is ample room. Children cannot be distributed irrespective of grade or residence, therefore some rooms are over-crowded. At Parting Ways one second grade has 57 and one third grade 62 pupils. To relieve congestion the committee voted to re-open the town hall school. This was done reluctantly. The lighting there is unhygienic, the heating cost is disproportionate to the number of children accommodated, and the hall is in so much demand for civic and social purposes that the school work is often interrupted. It is hoped that this over-flow school will be temporary.

The average membership of the schools increased by 50 for the year ending in June 1921, and the actual membership is now greater by 63 than it was in June. Every room is well filled. There is no provision for more pupils next year. Growth is certain. If the public schools are to care for all the children, two more rooms will be necessary or some must be put on half time. It is stated, however, on good authority that a parochial school is to be opened in September. It cannot be known in advance how

many this will enroll or what grades will be relieved but it is reasonable to suppose that this will make unnecessary, for at least a year, further accomodations for grade children.

HIGH SCHOOL PROBLEM.

The law requires Acushnet to maintain a high school or furnish this type of instruction elsewhere. Superior facilities have always been available in Fairhaven and New Bedford at much lower cost than could be secured by maintenance of a high school in the town. It is unfortunate for Acushnet that the present situation cannot continue.

The majority of high school pupils from Acushnet have attended Fairhaven High. It was Mr. Roger's wish when the school was organized that its opportunities should be open to Mattapoisett, Acushnet and Rochester so long as the attendance of children from these towns was not detrimental to the interests of Fairhaven children. He foresaw a time when it might be necessary to limit attendance to Fairhaven pupils. The time has arrived. The school now has a membership of 308 distributed by classes as follows; seniors, 34; juniors, 62; sophmores, 91; freshman 121. This is the highest enrollment in the school's history. It is clear that the immediate future will see a marked increase. Only 34 graduate in June, leaving 274 in the three lower classes. Making allowance for the loss of some pupils, an enrollment of 400 next year is not improbable.

Rapid increase in high school attendance has brought to Fairhaven housing and financial problems. The building is spacious but has so many rooms constructed for special purposes that it will with difficulty accomodate 350 pupils. An adequate number of recitation rooms is even now lacking. Several rooms not intended for the purpose are being used. The commercial department has 18 typewriters for 121 pupils and no space for more machines in the quarters now used unless new and smaller tables replace the present ones. With certainty of an increased enrollment next year

more machines must be purchased and placed somewhere. New desks, new lockers, new seats for lunch room, more teachers — these and many other needs due to a larger school have already made it necessary for Fairhaven to supplement the endowment by an appropriation.

In view of the fact that fully 25 per cent of the school are from Mattapoisett, Acushnet and Rochester it is to be expected that the Fairhaven school committee should seek relief by excluding these pupils. Since it will be unfair to debar those from attending who have begun their work in Fairhaven the question of receiving first year pupils is the only one now under consideration. It is practically certain that first year pupils from outside will not be taken next September. That means either that Acushnet must, in the future plan to send all its high school pupils to New Bedford or make provision for part of them in town.

There are now 24 pupils in Fairhaven and 18 in New Bedford. Tuition in the former school is one hundred dollars and in the latter one hundred fifty dollars. The cost of high school tuition will this year be \$5,100. Transportation expenses must also be borne by the town. This amounted to \$1126 for the year ending in June 1921 and will be greater this year. Under present arrangements Acushnet is spending \$6,500 annually for high school pupils. It will have to spend more as the number of children attending New Bedford high increases.

Loss of high school opportunity in Fairhaven and increase in cost of tuition in New Bedford are sound reasons for considering the advisability of establishing a junior high school in Acushnet. The junior high school organizes the seventh, eighth and first year high classes into one school. In it there is a differentiated course of study to meet the needs of pupils of different tastes, capacities and aims. There is departmental teaching like that in the senior high. Under this plan pupils receive a better preparation for regular high school as well as for life work. The senior high school course is thereby reduced to three years.

Maintenance of a junior high in Acushnet would increase greatly the efficiency of the training in the upper grades. It would be well worth a considerable investment of money for this reason alone. In my opinion it would be profitable financially as well. At the present time if there were two rooms available, its educational advantages could be secured for no extra expense. Eighteen of the forty-two high school pupils are in the freshman class. Their tuition and transportation is costing the town this year \$2,500. This would more than pay the cost of instruction in a junior high school at home.

Practically, fifty percent of your high school pupils are always in the first year. Relatively few finish the course. Only ten pupils are now in the junior and senior classes of both Fairhaven and New Bedford. It is probable that in the future the small number in the upper classes could be cared for in the schools mentioned.

If Acushnet organizes a junior high it will reduce its tuition obligation one-half. If, later, it decides to retain these pupils for a second year of high school work, it will be meeting three-fourths of its high school obligation. It might well permit the small number remaining to go to either Fairhaven or New Bedford.

Before it was known that a parochial school was to be established in September, the school committee had begun to investigate ways of enlarging the school plant to enable it to care for a prospective increase in the number of elementary school pupils. Through the kindness of Brown and Poole, architects, sketch plans and cost estimates of a four room addition to Parting Ways were secured. These are very practicable. In no other way can four rooms be secured so economically, and the addition would make the whole building safer from fire danger to children. Plans for organizing a parochial school may make unnecessary these rooms for grade schools next year. It is worth while to consider the question of erecting them to enable a junior high school. In my judgment it would be a good invest-

ment both educationally and financially.

TEACHERS.

There have been twelve changes in the teaching corps since the last report. The extra appropriation made to enable retention of teachers for a second year was not sufficient. It would require at least \$5,000 to accomplish this purpose. The financial condition of the town renders it unreasonable, perhaps, to expect such an amount. It will be necessary, therefore, to get the best teachers possible for the money available and to expect frequent changes.

The present corps in on the whole a strong one. It includes more experienced teachers than usual while the beginners are faithful, enthusiastic and ambitious. It is a pleasure to report again an improvement in the quality of results being secured. The leadership of good principals is in a large measure responsible for the steady rise in standards of attainment.

SCHOOL WORK.

No important changes have been made in the organization of the schools or of courses of study. The year has been characterized by steady effort along previously established lines. The new outlines in geography and civics instituted in September 1920 are being used with increased effectiveness. The appropriation of \$800 made it possible to introduce manual training in the upper grades. A room was fitted up in the basement at Parting Ways, the work being done by the pupils. Twelve benches and sets of tools were purchased. Mr. C. H. Holmes, principal of the school, having had training for teaching this subject, was placed in charge. It will, of course, take time to develop mechanical ability to a point where an exhibit of articles made by the boys will show good workmanship. It is already evident that there are many boys who have unusual mechanical capacity. The opportunity to take up manual training in school will undoubtedly be a factor in the choice of a life work in the case of some. It will give to every boy a

working knowledge of tools of practical value to him. In an educational way, training of the hand, the eye and the judgment is valuable. This subject gives, also, an added interest to the other school work of the boys.

In grades above the fifth, Junior Improvement Associations were organized last year. The purpose of these is to make the teaching of civics function in the practical application of the spirit of good citizenship. They are based on the theory that public spirit grows by action and not through talk. The work of this organization in Acushnet schools deserves high commendation. Grading play grounds, reseeding and caring for lawns, setting out shrubbery, protecting trees from injury, picking up rubbish from the streets, destroying nests of destructive insects are a few of the many tasks performed. All pupils in the grades mentioned are eligible to membership. All members who present evidence of having done not less than ten hours of civic service are entitled to wear a membership button. Civic service means service for school, neighborhood, community or state without compensation. There are nearly one hundred members in the Acushnet schools who are entitled to wear a pin.

The organization of boys' and girls' scout troops may appropriately be mentioned in this connection, although this work is not done under the direction of the school department. Mr. Holmes at Parting Ways in promoting the boy and girl scout movement had much to do with the unusual success of the Junior Improvement Associations because the spirit of the two organizations is essentially the same.

HEALTH.

A law became effective in September making compulsory the employment of a school nurse. The Acushnet committee was fortunate in being able to make arrangements, with the Fairhaven Community Nurse Association, for the services of a nurse one day each week at an annual cost of \$250. This comparatively small expenditure will

meet the requirements of the law.

The report of the nurse follows:

REPORT OF SCHOOL NURSE.

Number of School Visits,	53
Total number of children care,	322
Total number of children under care,	322
Cases of adenoids and tonsils,	14
Cases of defective hearing,	2
Cases of defective eyes,	2
Cases of Impetigo,	5
Cases of Ringworm,	4
Cases of Pediculosis,	113
Cases miscellaneous diseases,	22

The above report merely suggests some directions of the nurse's efforts. It includes but a small part of her work. It is impossible to itemize all the duties of the position, but they are about as follows:

I. School Inspection:

2. Each room is visited at least once in two weeks to inspect for (1) general cleanliness, (2) pediculosis, (3) contagious skin disease, (4) other communicable diseases, (5) correction of posture, (6) sanitary conditions.

II. Follow up work in the homes:

a. To investigate absences for (1) illness of (2) need.

b. To urge correction of remedial defects exposed by the physical examination or weighing of children and aid in provision of means of correction.

c. To instruct families in (1) hygiene and (2) keeping of quarantine.

III. Assisting school physician in physical examinations.

IV. Assisting school dentist in dental examinations.

V. Caring for minor surgical dressings and treatments.

VI. Giving health instruction through talks to pupils, thus supplementing the work of the teacher.

A part of the proceeds arising from the sale of Red Cross seals last year by Acushnet school children is being applied by the Massachusetts Tuberculosis League to pay for the health work in your schools. Miss Daisy N. Hanson, in the employ of this organization, has worked in the schools for some time this fall. The pupils of each school have been weighed and a record of each filed with the teacher. This undoubtedly will seem to many a useless procedure. Dr. L. E. Holt, Chairman of the Child Health Organization of America, says:

"By means of the scales the mother has been taught the meaning of the weight of the infant, and the importance of an increase in weight as a measure of the infant's progress in health. It is not an exaggeration to say that the manufacturer of scales has saved more infant lives than the manufacturer of drugs. It is the state of nutrition which the scales record, and normal nutrition spells health in an infant.

In older children also the same thing holds true. The condition of nutrition is an index of health, the best index, we believe. This is shown by the child's weight for his height, and still more by his regular progress in weight. Normal growth and development depend upon the nutrition of the body. The conditions which affect nutrition, therefore, are the vital things which must be emphasized in health education."

Children more than seven per cent. underweight for any considerable length of time should have medical attention. Many school systems are having pupils weighed monthly and reports sent home to parents. The results of the weighing of Acushnet children indicate that over twenty-five per cent. of them are more than seven per cent. underweight. If there was some welfare organization in town, it would be a splendid work to make available to these pupils a daily milk and cracker lunch. By this

means it is quite possible that some cases of tuberculosis would be prevented or, at least, that the future health of many children would be conserved.

GROWTH OF THE SUPERINTENDENCY UNION.

In 1897 Fairhaven, Acushnet and Mattapoisett were organized into a superintendency union. There were then 831 children, 27 schools and 28 teachers in the district. When the present superintendent assumed office in 1912 there were 1249 children, 34 schools and 43 teachers. There are at present 2792 children, 71 schools and 104 teachers. Fairhaven alone has more teachers than were in the entire district in 1912.

The growth of the district has, of course, increased the duties and responsibilities of the superintendent of schools. In order to secure results it has been necessary to organize the work as nearly as possible like that in a single community of similar size. The district is regarded as one of the best organized in the State. All the office work is done in Fairhaven by a secretary whose salary is divided among the towns. As nearly as practicable the course of study and the text books are the same for each town. Fairhaven pays for four-sevenths, each of the other towns for one-seventh of the superintendent's time, but in practice this division is disregarded. The joint committee expects the superintendent to regard the schools of each town as of equal importance and to give them the attention needed.

In spite of thorough organization of the work four towns cannot be managed as one. Four different sets of conditions have to be heeded. The problems are nearly four fold those of a single town. In New Hampshire an assistant superintendent is required by law when the number of teachers reaches one hundred. No other union in Massachusetts is as large as ours but in cities having as many teachers a primary supervisor is usually employed. Acushnet can profitably consider the question of how to secure more supervision of its schools. It is now receiv-

ing a less proportion of the superintendent's time than when it had one-third the present number of school rooms. In 1912 there were seven teachers employed in the town: now there are twenty-two.

The above facts in regard to the superintendency union have a bearing on the solution of a problem likely to be brought up at the annual meeting of the joint committee in April. Fairhaven and Acushnet are growing rapidly. During the last three years new buildings have been opened in these towns which have added eighteen teachers to the corps. There is every reason to expect continued increase. Both towns need more of a superintendent's time. There are two ways by which this result can be secured, namely, by dividing the district or by employing an assistant superintendent. The latter would be cheaper for Acushnet. If the district was divided supervision would cost the town materially more. The annual salary of the superintendent in Acushnet at the present time is \$571.20. The State reimbursement reduces the net cost to \$319.00.

AMERICANIZATION.

The war brought to the surface the problem of Americanization. It revealed the presence of an alarming percentage of illiteracy in our population and the relation it bore to efficiency in war time. Since 1918 further investigation has led to a broader comprehension of the extension and meaning of this in its relation to the problems of peace.

Easteners proud of their section and its traditional culture, have been startled to learn that the densest areas of illiteracy are not among the negroes and mountaineers of the south but in Massachusetts, New York and Pennsylvania. Massachusetts, the Puritan commonwealth awoke to find one-third of its population foreign born and one-half of this illiterate. In practically every state a campaign to eradicate illiteracy has been started. It has made fairly rapid progress but solution of the problem has

just begun. In 1918 in Massachusetts adult illiterates to the number of 3281 were enrolled in English and citizenship classes. In 1919 by act of the State Legislature the Division of University Extension was empowered "to promote Americanization through the education of adult foreigners unable to speak the English language by co-operation with local authorities." Under its terms the state bears half the expense of such classes. In order to receive financial aid a town or city must conduct this work so as to meet the requirements of the State Board of Education. In 1920 there were 15520 adults enrolled in Americanization classes throughout Massachusetts.

Acushnet has a problem of Americanization. It has no longer a population composed chiefly of native born citizens. The census of 1920 shows the following division:

Native White——Native parentage,	833
Native White——Foreign or mixed parentage,	1309
(one foreign born parent)	
Foreign Born White,	918
Native Born Colored,	15
	—
Total,	3075

Of our foreign born citizens 105 only are naturalized. There are 163 illiterate adults in town and 28 illiterate minors between the ages of sixteen and twenty-one.

The subjects taught in Americanization classes are, as has been stated, the English language and citizenship. Knowledge of English will aid materially in Americanizing aliens. Of this phase of the work the State Director of Americanization says: "Easy-going optimists fool themselves into believing that time alone and unaided will solve the language problem without governmental help. Sooner or later, they feel that the immigrant in our midst will acquire the English tongue just by his contact with America. How roseate a dream is such optimism is easily shown. The non-English speaking immigrant in most cases has no contact with American life and ideals. He

lives in a foreign colony composed of those of his own race. His wants are supplied by those familiar, not only with his language, but with his customs. His children, to be sure, go to the American school and talk to each other in the language unknown to their parents. Their knowledge of the language opens no door to the parents, but it widens the gulf between the conservation of the Old World ideas and the lawlessness of the New. The children despise the illiterate parent and lose in their newer knowledge the respect of parental authority. Moreover, it is inadvisable for an adult population to depend upon interpretation of American ideals through the viewpoint of an immature and ignorant child."

A nation wide campaign to eradicate illiteracy is on. In Massachusetts it is rapidly gaining headway. Acushnet needs Americanization work as much as most towns. No one can deny that we have a serious problem. Local as well as national patriotism should lead us to do our share and do it promptly. Acushnet should not be one of the last towns in the state to join in this work. I hope the committee will feel it wise to ask for an appropriation to make a beginning possible next year. It would cost \$400.00 half of which would be re-imbursed by the State.

Following are the estimates for 1922:

General Control	1922	1921
(Supt., Clerk, Census, incidentals.)	\$1,100.00	\$797.70
Instruction,	25,000.00	22,058.31
Teachers' Salaries,	23,100.00	
Text Books,	900.00	
Supplies,	1,000.00	
	<hr/>	
	\$25,000.00	

Operation and Maintenance,	9,500.00	7,916.00
Janitors' Salaries,	\$3,200.00	
Fuel,	3,000.00	
Repairs,	2,000.00	
	<u>\$9,500.00</u>	
Other Agencies,	4,575.00	4,832.57
Transportation-Elementary,	\$3,000.00	
High,	1,250.00	
Health-Nurse & School		
Physician,	325.00	
	<u>\$4,575.00</u>	
Miscellaneous,	5,600.00	3,861.56
High School Tuition,	5,100.00	
Sundries,	500.00	
	<u>\$5,600.00</u>	
Totals,	\$45,775.00	\$39,466.14

An increase of nearly \$7,000.00 is required. Why?

- (1) To pay four new teachers for one year. This year's expenditures includes their salary for only three months.
 (2) To pay increased cost of tuition and transportation of high school pupils. (3) To pay for more supervision. The joint committee will undoubtedly either divide the district or vote to employ an assistant. (4) To pay the salary of a school nurse. The law makes this compulsory.

ESTIMATED RECEIPTS.

Balance on hand	\$1,040.00
County Dog Tax-1921	450.00
State on account of Superintendent	252.00
General School Fund	5,000.00
	<u>\$6,742.00</u>
Total outside receipts	\$6,742.00
Appropriation required	\$39,050.00

CONCLUSION.

The devotion of Acushnet citizens to the interests of the school children has made the year distinctly one of progress. The school buildings are more adequate and in better condition than ever before. The organization and personnel of your system is on the whole superior to that of any previous year. The spirit of the schools, that which springs from the relations of teacher and pupils, of pupil to pupil, and of the school to the community, is on a higher level than ever before. Possibilities of improvement are, of course, limitless. The record of recent years indicates, however, that the Town is determined that its schools shall steadily go forward.

It has been a pleasure to work with this committee. Its earnestness and aggressiveness have wrought much in behalf of the children.

Respectfully submitted,

CHARLES F. PRIOR.

Present Corps of Teachers.

Parting Ways School.
